THANE: A PARADIGM OF INDIA'S FINANCIALIZATION

India's financial landscape is undergoing a massive transformation. With the mutual fund industry crossing ₹80 lakh crores in Assets Under Management (AUM), we are witnessing a powerful shift toward "financialization", the move from physical assets to market-linked growth. [Read More](#)

NASHIK'S INVESTMENT REVOLUTION

In India's rapidly expanding financial landscape, mutual funds have transitioned from a niche product to a cornerstone of wealth creation. With industry assets crossing ₹80 lakh crore, the growth story is undeniable. Yet, if we peel back the layers of these headline numbers, we find a striking imbalance. [Read More](#)

Hack of the month: Mutual Funds

Stay on top of your wealth with three smart habits:

- The 3-Goal Rule: Focus your investments on your top three financial milestones.
- SIP Automating: Set aside fixed chunks of capital each month to invest consistently.
- The Two-Day Rule: If you receive a bonus or extra cash, invest a portion of it right away.

Small investments, big wealth: less stress and more control over your future.

Thank you!
