News & Insights

Markets Take a Breather After a 9.7% Rally as Oil Edges Back to $95

- **Sensex 81,740, Nifty 25,218:** Both are down about 0.2% to 0.3%. Nifty dipped to 25,078 early, and Sensex to 81,300, before recovering part of the loss.
- **Why the pause:** Analysts link it to profit-taking after a big November rally. Nifty is up about 9.7% since the 30 October close (Thursday closed at 25,299, Sensex at 81,911).
- **Oil is back near $95 a barrel:** Higher crude keeps pressure on inflation, the rupee and India's import bill.
- **Inflation is the number to watch:** October retail inflation has already crossed the RBI's 6% threshold at 6.09%
- **Sectors:** Pharma and healthcare are leading, while realty and auto are weakest. India VIX, the market's fear gauge, is falling, so volatility expectations are easing.

- **Global cues:** Technology shares advanced overseas.
- **Earnings season:** MRF reported a 23% fall in Q2 profit to ₹417 crore, even as revenue rose 17.4%.
- **Asian tech shares rose while Wall Street tech edged lower** following Nvidia's leadership shake-up

Retirement Planning Calculator | Bonvista

A Retirement Planning Calculator helps you determine the exact inflation-adjusted retirement corpus and monthly Systematic Investment Plan (SIP) needed to maintain your family's lifestyle after you stop working. By factoring in your current age, target retirement age, inflation rate, existing savings, and annual SIP step-up, it creates a clear roadmap to financial independence.

Hack of the week

Give Your SIP a Yearly Raise

Whenever your income grows, let your SIP grow with it. Pick one fixed date each year, increase your SIP by even a small amount and automate it, so you invest more without feeling the pinch. Small yearly step-ups, kept up consistently, can go a long way toward your long-term goals. Ask Bonvista to set up a SIP step-up for you.

Mutual Fund investments are subject to market risks. Please read all scheme-related documents carefully before investing.
